Marcellenstraß. ‖ Im jahr M.DC.

2 unnumbered leaves, 1 unnumbered page, and 50 (2–51[1]) pages. 282 × 188 mm. This contains the first and second books of Acosta, *De Natvra Novi Orbis* (1589), with a note, "Zum Leser" of fourteen lines and chapter headings prefixed. The same text was later used in the full translation of Acosta issued by Sutorius in 1605 (page 29, *infra*), and the very same type, to page 49, when the last three pages (49–51) were reset, as is shown by differences in the spelling of words and line endings. The initial "D" on 1ª is also variant, and in the later issue a catch-word is inserted on 51ª. John Carter Brown, I. 548. Purchased in 1847.

## BAPTISTA *or* BAUTISTA, Juan.

Advertencias. ‖ Para los Confessores ‖ de los Naturales. ‖ ¶ Compvestas por el Padre ‖ Fray Ioan Baptista, de la Orden del Seraphico ‖ Padre Sanct Francisco, Lector de Theologia, y ‖ Guardian del Conuento de Sanctiago Tla-‖tilulco: dela Prouincia del Sancto ‖ Euangelio. ‖ Primera parte. [Emblem of order.] Con Priuilegio. ‖ ¶ En Mexico, Enel Conuento de Sanctiago ‖ Tlatilulco, Por M. Ocharte. año 1600. Colophon: Excudebat Ludouicus Ocharte Figueroa, ‖ Mexici, in Regio Collegio sanctę ‖ Crucis, sancti Iacobi de Tlati‖lulco. Anno Domini ‖ 1601.

*Primera parte:* 15 unnumbered, 112 numbered, 58 unnumbered leaves, and 1 blank leaf. Signature C contains 9 leaves, f. 14 being repeated, and the seventh and eighth leaves were cancelled, as is shown by stubs. Signature D is on the inserted eighth leaf of C, and what should be D 1 is represented by a stub. *Secunda parte:* 331 (113–443) numbered leaves (with errors) and 104 numbered leaves of index. It has a separate title, varying in the arrangement of lines, and an emblem different from that on title of *Primera parte*. 153 × 99 mm.

A second copy of *Primera parte*, perhaps the first issue, contains signatures D and E of eight leaves each, without cancels and with correct paging. The text is the same to 14ᵇ, and the first paragraph on 15ª is the same as that on the duplicated 14ª; but what follows on the duplicated 14ª, 15, and 16ª is not in this second copy, and a paragraph, "¶ Sed quid illo qui cuidam," etc., on 15ᵇ, 16, and 17ª, is omitted from the first copy. From that point the texts and folios appear to be identical On cover are stamped arms, surrounded by "J. Gomez de la Cortina et Amicorum. Fallitur hora legendo." This issue appears to have escaped the attention of bibliographers.

Signature P of *Primera parte* contains 8 leaves, and in the earlier issue is followed

by 2 unnumbered leaves, without signature-mark, being the final paragraph of the *Advertencias*, ¶ *El Corrector*, and 13 pages of *Erratas*, the whole in roman. In the later issue there is a signature-mark —*—, the arrangement of the last paragraph of the text is different, the paragraph ¶ *El Corrector* and three lines on pages 2 and 4 are in italic, and the *Erratas* have been condensed by omitting the words misprinted in the text.

A second copy of *Secunda parte* has a title lined identically with the first copy of *Primera parte* and with the same emblem. The text in the two issues of *Secunda parte* is the same, but leaves misnumbered 431, 430, and 429 in the first copy are correctly numbered —429, 430, and 431—in the second. Book-plate of Nicolas Leon. Medina, *La Imprenta en Mexico*, I. 163. Icazbalceta, *Bibliografia Mexicana del Siglo XVI*, 115. John Carter Brown, I. 550. Purchased in December, 1909.

A MS. of 46 leaves, containing 62 maps and illustrations in colors, with descriptive text. As this MS. is about (1921) to be published by the Champlain Society of Toronto, Canada, a detailed description is not necessary in this catalogue. The illustrations will be printed in black and white only, and their beauty and finish, not unlike those of an illuminated MS., will not be reproduced. The history of the MS. so far as known is related in the Hakluyt Society volume for 1859, which contains a translation by Alice Wilmere and some of the illustrations in colors. The MS. was then in the possession of M. Féret, librarian of the Public Library at Dieppe. It was again printed in 1870 by Abbé C. H. Lavardière of Laval University, Quebec, with the illustrations in black and white, and, as wood-cuts, of a rather coarse engraving. When M. de Puibusque saw the MS. in 1855, he described it as having 115 pages, bound in much worn parchment. Purchased at the Pinart sale, London, January, 1884.

12 unnumbered leaves, 279 pages, and 1 unnumbered leaf. MS. 437×214 mm. On title-page: "Rec. 15 Novemb. 1612." With it is a translation in 115 pages. MS. 324×202 mm. The writer is believed to have been the author of the journal of Spilbergen's tour round the world, 1614. With the manuscript is the following note by Henry Cruse Murphy: "The following pages were the result of researches made among the archives of the Netherlands during my sojourn at The Hague in 1857–61 for the purpose of obtaining any information to be found there in regard to the early explorations of the Dutch along the coast among the island[s] and on the main land of the United States. They contain the journal of the second voyage made by that people to our shores which was fitted out with reference in a certain contingency to the same design and under the same influence as that of Peter [Plancius] — those contemplated in the first voyage under Henry Hudson. Undertaken under different auspices, this voyage like that of Hudson had for its object the discovery of a northeast passage to the Indies, and only in the event of a failure to make any progress through the icy barrier in the north was it like him to turn to the west and reach the shores of New France. Meeting with similar obstacles as those which beset our first voyager, the two vessels engaged in this expedition turned their prows accordingly to the west and struck our coast nearly at the same point as that first seen by Hudson, that is on the coast of Nova Scotia (?) and then proceeding west and south along the shore, explored the coast of New England, doubled the point of Cape Cod and entered the water of Long Island Sound in the month of [*blank*] 1611. The occurrence of this voyage was known to our earlier writers, but it was not deemed by them of sufficient

importance to demand particular mention and therefore the particulars of it have been unknown. It was known by the name of the voyage of the Fox and Crane, inaccurately described by some later historians as the Little Fox and Little Crane." From the Murphy collection.

SMITH'S MAP OF VIRGINIA

On Smith's map of Virginia we take the following lists of "states," prepared by Mr. Wilberforce Eames, from Mr. George Watson Cole's *Church Catalogue*, II. No. 359:

(1) In this state the map has not Smith's coat of arms or motto in the lower right-hand corner; and is without the date 1606 below the scale; or that of 1607 under the picture of Powhatan. It should be observed that as this map naturally lies before the reader the north is at the right hand and the west at the top.

(2) This state includes the additions of the coat of arms (without the motto) and the dates 1606 and 1607.

(3) The motto is now under the coat of arms; and the degrees of latitude and longitude have been added, as well as four new names: *Ta uerne rs roade*, *winstons Iles*, *Broo kes Forest*, and *Gunters Harbour*.

(4) In this state the new name *Sparkes* || *content* is first seen, with the first word above the hill and the second below it; also *Demo crites* || *tree* and *Burtons* || *Mount*, the two words of the latter being separated by the tree and mountain.

(5) This state is the same as the Fourth, but the page numbers 1692 and 1693 have been added in the two upper corners. This is the true Purchas map, as it has references to Smith.

(6) We here have *Page* 41 || *Smith* in the lower right-hand corner; *Sparkes* || *content* is changed to *Sparkes* || *Vaylley;* and three new names are added, as follows: *Fetherstones* || *Baye*, *Bollers bush*, and *Sparkes* || *poynt*.

(7) This state has the new names *Blands* || *C:*, *Downes dale*, and *Washeborne* || *C:*, but with the dates 1692 and 1693 still unchanged; but the name *Bollers bush* has been changed to *Boolers bush*.

(8) In this last state of the map the Purchas page numbers have been changed from 1692 and 1693 to 1690 and 1691. In all other respects this state is like the Seventh.

The folding plate with the map of *Ould Virginia* is found in Three states:

(1) In this state it has the following names: *Mountaynes forest* || *Masons bushe* || *Waldens Oake* || *L: D: Lenox rock* || *Mildmaids roade* || *Townsrows end* || *Segars grove* [and trees], *Beauchamps playne* || *L: Salvage Rocke* || and *Bedfords Valley*.

(2) In this state it has the names *Davers Ile* || *P. Barkley* || and *printed by Iames Reeve;* but not the name *Adams Sound*.

(3) In this state it has the name *Adams Sound* and each of those already given.

SMITH'S MAP OF NEW ENGLAND

On Smith's map of New England we take the following list of "states" from Mr. Wilberforce Eames' list printed in Mr. George Watson Cole's *Church Catalogue*, II. No. 369:

(1) [1616] In this state the names || *P. Travers* / and || *Gerrard Ils* / do not appear. Of this issue we know of but two copies: the Prince copy, in the Boston Public Library (imperfect), and that in the Lenox Library. The latter of these, which is in fine condition, does not have the date 1614 under the scale. The map in Hulsius' Collection of Voyages, Parts XIII, XIV, and XX, is a very close imitation of the map in this state. Other facsimiles have been published.

(1 a) It is possible that some copies, otherwise corresponding to this state, contain the date 1614.

(2) [1616–1620?] With the names || *P. Travers* / and || *Gerrards Ils* /, but before the addition of Smith's coat of arms.

(3) [1616–1622?] Has Smith's coat of arms, but not the motto.

(4) [1624?] This state has the motto, || *vincere est viuere* /, in a scroll, close to the coat of arms. The degrees of latitude on the western margin, and the degrees of longitude at the top and bottom, are here given for the first time. Before the addition of the name || *Paynes Ils* / . The line || *Robert Clerke excudit.* || is partly rubbed out, but still visible.

(5) [1626?] With the inscription || *Paynes Ils* / and the cross-hatching on the larger side of Smith's armor in the portrait. This is the last state in which the place and printer's name appear as || *London* / *Printed by Geor: Low* / .

(6) [1627] This state has the name of the printer changed to || . . . || . . . || *Iames Reeue* / , but the last line of the inscription still reads, || *Prince of great Britaine* / .

(7) [1631?] In this state the last line of the inscription reads, || *nowe King of great Britaine* /; and the following new names have been added: *Martins Ile; P. Reeves;* and *P. Wynthrop*. The name || *Salem* / appears above || Cape ANNA || in the bay; and the names *Francis Ile*, *Clairborns Ils*, and *P. Saltonstale* take the places of *Fullerton Ils*, *Cary Ils*, and *P. Murry*. The bay opposite *Clairborns Ils* is enlarged, and the islands increased in number from 8 to 18. The word *NEW* is added just above the word *Plimouth*. The names *P. Standish* and *Wests Bay* are both new. This state is before the addition of the large coat of arms of the Council for New England in the center of the map.

(8) [1632] This state has the large coat of arms of the Council for New England in the center; to the northwest of "Talbotts Bay" two rivers or branches of the bay are for the first time represented extending nearly northward; the name / *Salem* / is taken out of the bay and placed in its proper position. The name *Charlton* is new. This state still lacks the school of codfish at the northeast of "Cape Iames."

(9) [1635?] This state has the school of fish, and the three-line inscription under the compass, referring the reader to Wood's *New England Prospect*, of 1634. "The River Charles" is extended to the western edge of the map, and the following new names are added: *Water-towne; New towne; Medford; Charles Towne;* and *Saugus*, near or above the north bank of "The River Charles;" and *Boston; Roxberry; Winnisime;* and *Dorchester*, near its south bank; the latter name taking the place of *Cheuyot hills*, at the west of the hills, in the former state. Figures of trees, houses, and animals are inserted both above and below the river.

## SUAREZ DE FIGUEROA, Christoval.

(*engraved title*): Hechos || de Don Garcia || Hvrtado de Mendoça, || Marques de Cañete. || A Don Ivan Andres || Hurtado de Mendoça || su hijo, Marques de Cañete, || Señor de las Villas de Argete || y su partido, Montero mayor || del Rey ñro señor, Guarda || mayor de la ciudad || de Cuenca, ett[a] || por el Doctor Christoval || Suarez de Figueroa. || En Madrid, en la Imprenta Real. || Año 1616.

9 unnumbered leaves and 324 pages. 191 × 140 mm. Except for the title and a preliminary leaf to be noted, this seems to be line for line with the edition of 1613. The second preliminary leaf has on recto: El Capitan Don Gabriel || Caruajal de Vlloa, al Lector, with the catchword "Aora," and on verso: A Don Ivan || Andres Hvrtado || de Mendoça, Marques de || Cañete, &c. The page "El Capitan" appears again on verso of preliminary leaf 4, this time in its proper place. The dedication to Hvrtado de Mendoça, signed "El Doctor Christoual Suarez de Figueroa," does not appear in the 1613 edition, but both editions contain the Doctor's dedication, "Al Dvqve de Lerma, Marques de Denia, &c.," and in each case it is printed on the same leaf which has the "El Capitan" page. John Carter Brown, II. 181. Purchased in 1854.

The *Lectori Salutem* should be in each volume and identical in form and content, dated "Moguntiae, 7 Cal. Apr. 1618." It is wanting in Vol. II of this set, and also in the copy in the British Museum.

A second copy of Vol. III, wanting the *Lectori Salutem*, differs in that pages 931 and 932 have been reset and another tail-piece used. This was probably done to correct an error on page 931 in l. 4 from the bottom of the page, the word "illam" having been omitted [stricto gladio *illam* expulit], but a typographical error occurs on p. 932, l. 5, of the second copy — "praegandes" for "praegrandes." H.," was probably by Nicholas Hoskins. Inserted is a broadside, dated October 5, 1622, issued by Rowland Serchfield, Bishop of Bristoll, on manner of carrying into effect the letters received from George Abbot, Archbishop of Canterbury, approving of Captain Whitbourne's plan. This was in accordance with a "Reference" issued by the king at Theobalds, April 12, 1622. A similar broadside issued by George Monteigne, Bishop of London, with a MS. postscript, signed by Richard Whitbourne, is in the Henry E. Huntington library. The London letter is in two forms, one with four lines in italic below the signature "George London," and the other with three lines. All three were printed in London by Felix Kingston, as Mr. George Watson Cole judges by the initial letters. The *Short Discourse* (*infra*) was probably issued for the same purpose. Church, No. 397.
